

AN IDEAL SOLUTION

Ideal Fire Limited provides planned preventative maintenance on all fire alarm systems, emergency lighting systems and portable fire extinguishers. A combination of in-depth industry knowledge, experience, reliability and offering a trustworthy service is key to a comprehensive Fire Safety Solution.

Established by Ray Dooley in 2014, the team at Ideal Fire have the knowledge and expertise to solve all fire safety issues with an in-depth knowledge of the industry standards. All fire alarm systems are installed and maintained to the current Irish standards. By providing a complete fire safety solution, Ideal Fire can design, supply, install, commission and maintain all manner of fire safety systems.

The Ideal Fire team is reliable, highly experienced, knowledgeable and always there for you. They pride themselves on delivering excellent customer service and this has been the driving force behind continued growth year on year. Utilising class-leading cloud reporting tools results in improved communication and early identification of potential highly impactful issues which is of great benefit to customers.

Owner and Managing Director Ray Dooley says that the public sector is very important to Ideal Fire as they are an approved supplier on the Office of Government Procurement Framework for providing maintenance on fire alarm and emergency lighting systems.

"At present Ideal Fire provide the planned preventative maintenance on the fire alarm systems at UCD. With over 26,000 fire alarm devices across a varied range of systems and buildings from residential buildings to animal holding in the veterinary clinic throughout the entire campus and residences and estates," he explains. "UCD is one key client of a host of public sector customers in which Ideal Fire take great pride in maintaining, from education to healthcare. Ideal Fire has shown that adaptability and catering to the needs of the client aids in providing a comprehensive Fire Safety Solution."

In terms of future plans, Ideal Fire is currently at the handover stage of recently completed fire alarm systems in Blackrock Shopping Centre, Lusk Community College, Westwood Student Accommodation in Galway and Dublin Landings 3. They are also involved in the upgrade of fire alarm systems in several apartment complexes in line with current Irish standards.

Ideal Fire has continued to expand and grow their projects and maintenance portfolio. They have thrived in 2020 as clients appreciate the reliability and quality of their work. Closing Mr Dooley says: "Ideal Fire are in a somewhat fortunate position as we provide essential maintenance where systems have to be maintained for insurance purposes and more importantly, the protection of life and this has kept us busy with all staff remaining employed throughout this pandemic."
